NOTES:

- Background topographic map data extracted from Natural Resources Canada - National Topographic Database - DRG sheets 50K 41A/04 and 40P/13
- Orthophotos provided by First Base Solutions, data 2006
- Watercourse, roads, wetlands ANSI, and PSW information extracted from the Ontario Digital Geospatial Database
- Watercourse thermal regime data is derived from the MVCA 2006 information.
- Turbine locations current as of 12 Jan 2012
- Receptor locations current as of April 14, 2010
- Participant property current as of May 4, 2010

Datum: NAD83
Projection: UTM Zone 17N

K2 WIND POWER PROJECT

Candidate Natural Features

PROJECT N°: TC91606	FIGURE: 3.28
SCALE: 1:12,500	DATE: May, 2012

443000 444000 445000 446000 447000

Path: G:\TC91606_Capital Power Wind Farm\GIS\Summary\Map\CandidateNaturalFeatures_Final.mxd

- Legend**
- Proposed Project Location Components**
- Meteorological Tower
 - Buildable Area
 - Temporary Construction
 - Access Road
 - Crane Path
 - Power Collection (Overhead)
 - Power Collection (Underground)
 - Substation/Switchyard Transformer Station
 - Turbine Location & Blade Sweep
 - Zone of Investigation (120 m)
 - General Project Area

- Existing Features**
- Railway
 - Abandoned Railway
 - Provincial Park
 - Watershed Boundary (MNR)
 - Wetlands**
 - Provincially Significant
 - Locally Significant
 - Candidate Significant Wetland

- Area of Natural & Scientific Interest - ANSI (MNR)
- Candidate Significant Amphibian Woodland Breeding Habitat
- Feature
- Candidate Significant Amphibian Corridors
- Candidate Significant Raptor Feeding & Roosting Habitat
- Candidate Significant Habitat for Species of Conservation Concern (Snapping Turtle)
- Candidate Turtle Over-wintering Habitat
- Candidate Significant Bat Maternal Colony Roost Habitat
- Candidate Significant Reptile Hibernacula
- Candidate Significant Waterfowl Nesting Habitat
- Candidate Significant Colonial Nesting Bird Habitat (Heron)
- Candidate Significant Woodland
- Candidate Significant Valleyland
- Candidate Turtle Nesting Habitat
- Candidate Significant Amphibian Woodland Breeding Habitat
